

## **Consent Form – EEG Study: Infants**

**Project Title:** The Neural Basis of Object Categorization in the Infant Brain

This study has been approved by the Human Research Ethics Committee at Western Sydney University. The ethics reference number is: H15855

**I hereby consent to participate in the above-named research project.**

**I acknowledge that:**

- I have read the participant information sheet (or where appropriate, have had it read to me) and have been given the opportunity to discuss the information and my involvement in the project with the researcher/s
- The procedures required for the project and the time involved have been explained to me, and any questions I have about the project have been answered to my satisfaction.

**I consent to:**

- Completing demographic questionnaires about me and my baby
- The recording of my baby's electroencephalography (EEG) data and behavioural responses to stimuli

### **Data publication, reuse and storage**

This project seeks consent for the data provided to be used in any other projects in the future.

To make reuse of the data possible it will be stored under Western Sydney University's Open Access Policy.

**I understand that:**

- In relation to publication of the data my involvement is confidential and the information gained during the study may be published but no information about me will be used in any way that reveals my identity.
- The researchers intend to make the non-identified data from this project available for other research projects
- I can withdraw from the study at any time without affecting my relationship with the researcher/s, and any organisations involved, now or in the future.
